ORGANIZERS

11th ERBIL AUTOSHOW, The Biggest Automotive & Spare Parts Exhibition of the Region

Erbil Autoshow has been organized for 10 years which is one of the most significant milestones in the development of the region. The fair has continuously improved and grown since the very first day it started, and at where we stand today, it has become one of the most important autoshow not only in Erbil but also in the MEA region.

International automotive and automotive spare part manufacturers and importers are leading at Erbil Autoshow. The interest in these fairs has been gradually increased day by day, and these fairs, which play a key role in the country-wide development of the automotive industry, significantly contribute to the local economy, as well.

The automotive industry gets an increasing share from the modern technological developments and it indicates the aspiration of our society to live well that the technical and aesthetical developments in the products create a demand among people. The automobile enthusiasts will get the change to know both the latest technological developments and also new automobile models to be released to the market and they will gain insight about the automotive technologies and design approaches of the future.
